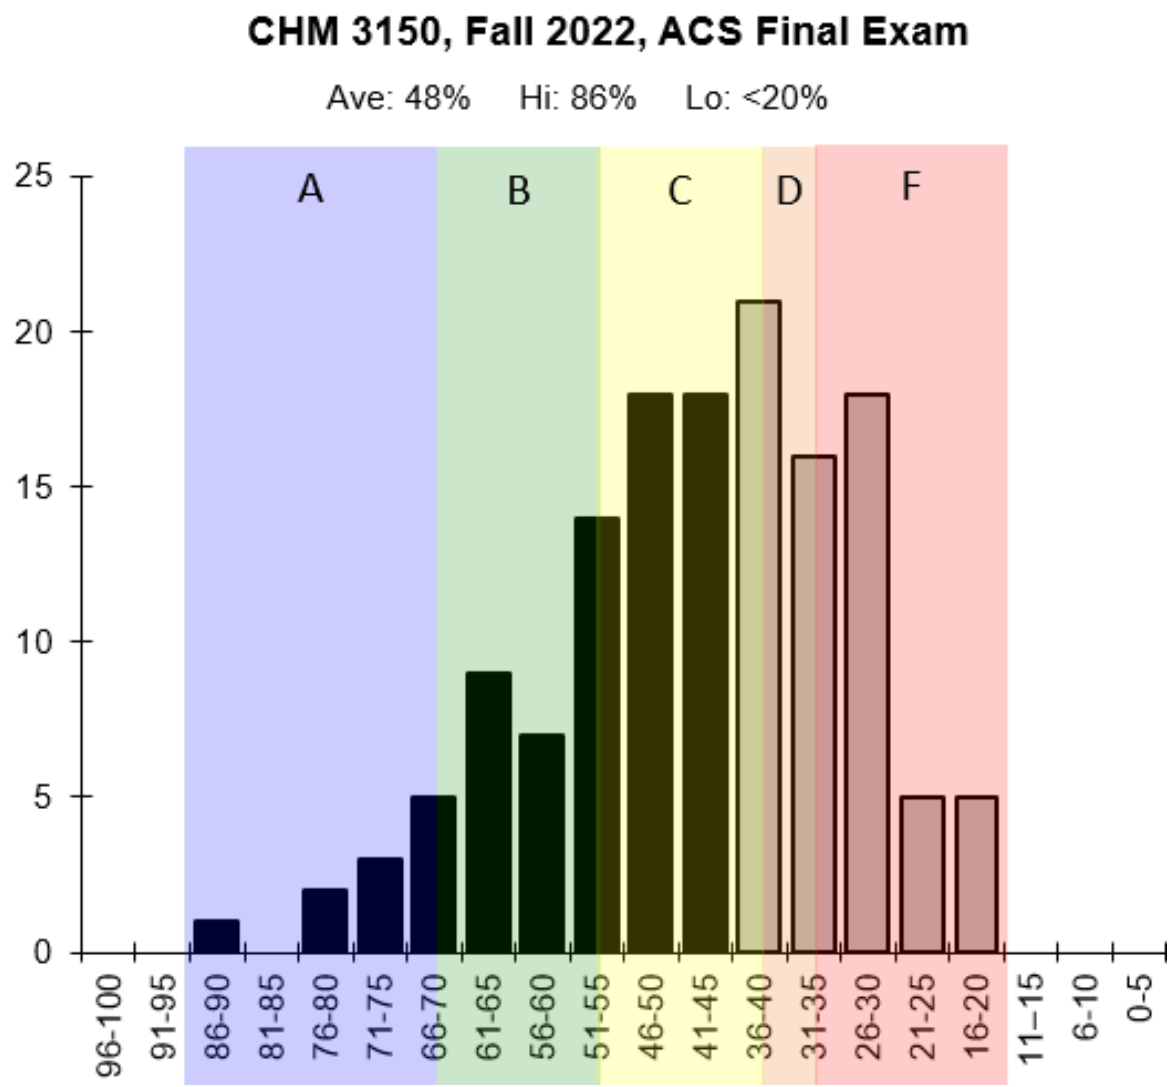
Final Exam Results

A/B/C… ranges are to give you a rough idea of course grade (assuming full homework credit) **based only on this exam score**, which is 1/3 of your exam points:
100 + 100 + **100** = 300 points


If this exam is better than your midterm average, then it will be weighted double (each midterm is scaled down to 75, and final scaled up to 150)
75 + 75 + **150** = 300 points
