

- a) Complete the Lewis structure for guanidinium (σ bonds shown)
 b) Draw all resonance contributors, rank them & explain.
 c) Which is the more basic Nitrogen atom (**1** or **2**)? Explain.

	Lone pair on N #1 is...	Lone pair on N #2 is...	More basic Nitrogen?
A)	localized	delocalized	#1
B)	localized	delocalized	#2
C)	delocalized	delocalized	#1
D)	delocalized	delocalized	#2
