

2A) Nomenclature (11 pts)

Draw *ortho*-phenylaniline

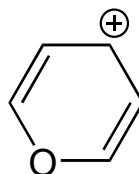

Name the following compounds according to the IUPAC rules. **Show your work for full credit.**

2B) Aromaticity (3 pts)

For the given cation, **complete the Lewis dot structure** (supply any missing lone pairs) and determine whether or not it is aromatic. Indicate the electron count you used to make your decision.

complete the Lewis structure
(add missing lone pairs):

electron count: _____

aromatic? _____

if no, why not? _____
